

Cookie Banners, Dark Patterns, and other tales
Horst Kapfenberger, NOYB

Abstract:

The talk is about the noyb project "Cookie Banners & Dark Patterns", the automated detection of "dark patterns", and the generation of legal complaints documents on base of the GDPR.

You will also hear "how it is to work in an NGO".

Bio:

Consultant and information technology professional, lives and works in Vienna. Born in 1974. Runs a small IT services company since 2006. Contributes to open source projects and the BSD ecosystem. Software engineer with a strong focus on security and performance. Expertise in scalable system architecture, automisation and performance monitoring & optimization. Knowledge of IETF and W3C standards, telco stuff & ISP doings, and data protection regulations.

Joined the NGO noyb.eu in 2019.

Success Stories

- * Max S.: "Don't hire that guy — he will ruin your business"
- * Ralph H.: "What a disaster!"
